PhD position at Universitat Oberta de Catalunya (UOC)

There is an immediate opening for a PhD student position at Universitat Oberta de Catalunya (Barcelona, Spain). I am looking for candidates that are interested in pursuing a PhD on topics related to Computer Vision, Affective Computing, Social Robotics, Explainable AI, and/or Fairness in AI. Ideal candidates must have completed their MS studies in areas related to Machine Learning, Computer Vision, or Natural Language Processing. They should also demonstrate proficiency in Python and possess some experience in PyTorch and/or TensorFlow. If you join us, you will be part of the Artificial Intelligence for Human Well-being lab at UOC (AIWELL): a research group at UOC working on cutting edge AI research, with a lot of experience on the research topics mentioned above.

If you are interested in this position, please send me an email (Agata Lapedriza, alapedriza@uoc.edu), with the subject "PhD at UOC (AIWELL)".
In your email please attach:
(1) your updated CV; and
(2) a cover letter explaining your motivation and the research topic you would be more excited about to work on.

I will follow up with the qualified candidates with further information via email (please, do not contact me via LinkedIn).

The deadline for expressing your interest is November 17th 2023.

Regarding the timeline, I will be reviewing applications after November 17th and contacting the qualifying candidates by December 2023.
