

We have 3 new open internship positions at Apple Machine Learning Research Barcelona for 2025. Two of them are on Generative Models, Interpretability, Controllability, and Model Editing and one on Spatial Audio generation. Some examples of publications by the team are:

<https://arxiv.org/abs/2410.23054>, <https://arxiv.org/abs/2409.11369>

As an intern in the Machine Learning Research team, you will receive technical mentorship and guidance from a dedicated senior researcher and will be able to collaborate with a dynamic, multidisciplinary and international team of researchers and engineers. Together with your mentor, you will decide on a line of research that will impact the scientific research community, future Apple products, and society. You will work towards a publication in a top machine learning venue towards the end of the internship and will be responsible for delivering ML research aligned with the core values of Apple, ensuring the highest standards of quality, scientific rigour, innovation, and respect for user privacy.

The internship will be on-site, and visa procedures are supported as needed. Duration: 6+ months, any time from January 2025 - late September 2025.
